of 2" pipe be purchased, 60 rods of which be paid for by the
Council, and the cost of this be deducted from the indebtedness
of the system to the Municipality. The other 100 rods to be

Mr Dodds stated that sufficient room was available to extend the pit for a considerable distance, which would give the Council gravel for a considerable number of years. With reference to the amount of pipe, the delegates stated that their original request was for 60 feet of pipe to be supplied by the Council, as this was the required amount needed to divert
over
